HOSPITAL
manchester's diagnostic and treatment centre

About Us

The Bridgewater Hospital is committed to delivering high quality surgical, medical and nursing care. All our Consultants have proven track records of best practice standards among health professionals in their specialty. Their expertise is supported by the professionalism of our teams of staff, including patient advisors and care assistants, who have been carefully chosen to exemplify warmth and personal service.

A Unique Facility

Committed to providing a responsible and safe approach to day case surgery, the Bridgewater Hospital delivers a patient centred approach for procedures and operations without the need for an overnight stay in hospital. Patients can recover at home following a short period of observation within the contemporary and stylish recovery areas within the hospital.

Comprising of three operating theatres (including an ultra sterile digital orthopaedic theatre) the clinical service incorporates recovery bays, an endoscopy suite, consulting rooms and an Outpatient minor procedures area. The digital diagnostic suite includes a MRI Scanner, ultrasound, X-ray and CT Scanner.

The Bridgewater Hospital is committed to delivering high quality surgical, medical and nursing care.

*We are open six days a week,
providing prompt and
convenient treatment.*

Our distinctive healthcare model means that you are:

- treated in pleasant, friendly and modern surroundings
- able to recover in the comfort of your own home
- experiencing less disruption to your routine
- less likely to acquire hospital related infections

We are open six days a week, providing prompt and convenient treatment.

Our general clinical services include:

- Pain management for both chronic and acute conditions
- Cosmetic surgery
- Obesity surgery – gastric balloon and banding
- Endoscopy services for all upper and lower gastro-intestinal disorders e.g., indigestion, bleeding, pain.
- Physiotherapy
- Health Screening
- Private GP services
- Outpatient consultations

Working in Partnership

Working closely with other independent and NHS healthcare providers, we offer an individual, patient-focused, quality service for those who demand excellence in their healthcare.

Leading by Example

The health and safety of our patients and staff are our primary goal. Utilizing the most up to date medical and surgical treatments, the Bridgewater Hospital offers a clean, modern environment in which our team of experts deliver a high quality, good value service.

Whether you are insured or prefer to self-fund, we offer you superior standards of clinical care in the most cost effective way

The Advantages of Day Surgery

Day surgery provides benefits to all involved. Patients receive treatment that is suited to their needs and which allows them to recover in the comfort of their own home, following a short period of observation within the hospital. The risk of hospital acquired infection is also reduced.

Endoscopy services

This is telescopic examination of the stomach and bowel, and involves performing diagnostic procedures like Gastroscopy, Flexi-Sigmoidoscopy, and Colonoscopy.

Health Screening

This includes many different aspects of modern medicine, helping clinicians to determine risk factors that may lead to development of some conditions.

Covering a wide range of general diagnostic tests as well as specific risk areas, our health screening service will be adapted to reflect your age, sex, family background and personal concerns.

Private GP Service

With appointments available to suit your needs, we can offer more time to discuss your concerns. Whether you require routine appointments or just occasional advice, our GP's are committed to providing the highest standard in general practice consultation.

Orthopaedic Surgery

A wide range of orthopaedic surgery can be carried out in our 'clean air' operating theatre, specifically designed for investigations and treatments of bones and joints such as shoulders, knees and feet.

Cosmetic and Obesity Surgery

A comprehensive range of cosmetic surgeries can be carried out within the hospital as day case procedures – these can be discussed more fully with your surgeon during your consultation.

We are also able to offer gastric band or gastric balloon procedures to support your weight loss goal.

ZESTPHYSIO is a chartered physiotherapy and sports clinic, conveniently located within the Bridgewater Hospital.

Offering specialist physiotherapy assessment, treatment, advice and rehabilitation for a wide range of conditions, we treat sports injuries, back, neck and joint pain and provide expert rehabilitation after surgery or injury.

Pain Management

The emphasis of management for our chronic pain patients is to improve their quality of life and enhance their level of function.

Our pain specialists are expert in the assessment and multi-disciplinary management of chronic pain problems including:

- Back pain
- Neck pain
- Complex regional pain syndromes
- Neuropathic pain
- Whiplash
- Musculoskeletal pain
- Fibromyalgia
- Post surgical pain syndromes

Specialists have access to all the necessary diagnostic equipment to investigate and diagnose your chronic pain problems. The hospital provides a state of the art facility to undertake the full range of interventional pain management techniques, including:

- Epidural injections
- Lumbar facet injections
- Cervical facet injection
- Facet radiofrequency lesioning
- Botox
- Acupuncture
- Psychology
- TENS

Manchester Fertility Services (MFS)

Causes of infertility are numerous: it is estimated that around 15% of couples experience difficulty or delay in conceiving. Identifying the specific cause of the symptom of infertility is of primary importance.

Manchester Fertility Services works closely with the Bridgewater Hospital to offer consultation, investigation and counselling, following which a programme of treatment is formulated based on the specific needs of the couple to provide the greatest chance of success.

Our teams are individually and collectively committed to providing outstanding levels of care, support and attention.

For further information please telephone 0161 227 0010.

Manchester Sports Medicine Clinic (MSMC)

Sports injuries vary from sport to sport. They can be anything from contact injuries such as a tackle in football or rugby which affects the bone, to muscle strain injuries from racket sports and road running, repetitive strain injury from rowing or cartilage damage from skiing.

MSMC is a unique centre of excellence in the North West, dedicated to the science and treatment of sports medicine and arthritis treatment. Our consultant-led team will provide you with expert advice, support and treatment whatever your field of interest or endeavour.

As part of our ongoing commitment to education and sharing the latest advantages of Orthopaedic and Sports medicine we run monthly evening seminars at the Bridgewater Hospital which are aimed at GPs and Physiotherapists.

For further information or to make an appointment for a consultation please telephone 0161 227 0027.
